Strong All Day.

By THOMAS C. SHOTWELL.

New York, Dec. IL.—From all quarters cheering information came to the stock market to-day and the result was a general uplift in prices that left the market market proved in superlatives. The importance of the tobacco settlement is that the day. The urgent character of the buying was the best proof that most of the subarcase were for the account of shorts but there was considerable investment buying, too, for the developments were of a most substantial character. Looking at the market from a strictly technical point of view, however, it seemed as thought of the weeks ago and came somewhat hough it should be sold on this raily because most of the developments had been expected on had been actually in possession of Wall street for a week or more.

The greatest importance was attached by the street to the Hadley report on allway securities that President Taft up the Supreme Court of the Supreme Court of the Supreme Court of the Supreme Court of the Mashington Gas like the Company yesterday to succeed John R. McLean, resigned, will probably have a beneficial effect on Washington Gas took an upward turn shortly ingo to fast took an upward turn shortly ingo to fast took market, and hung is tationary around the level of SI, with full to will advance in Steel prices was an nounced in these dispatches nearly the company around the level of SI, with full to company, was prominently mentioned in the supreme Court of the Mashington Gas took an upward turn shortly ingot for days it has assumed the general tone of the Washington stock market, and hung is stationary around the level of SI, with full to will alwances and losses.

Howard S. Reeside, member of the company, was prominently mentioned in the supreme Court of the market from a strictly technical acts to the fact that the company, was prominently as the company, was prominently mentioned to be a constitute of the street of the street for the street of the st

The greatest importance was attached by the street to the Hadley report on railway securities that President Taft submitted to Congress, to the approval that the Supreme Court of the Tobacco plan, and to the advance of \$1\$ a ton in the price of wire. These three things were really not news at all, for all had been known in advance. The Hadley report was in Wall street two weeks ago and had been thoroughly digested by the leaders. The essential features of the report are the rescommendation that the government attempt nothing more than complete publicity in connection that committee commission was a matter of for the supermitted to the supermitted that han complete publicity in connection with security issues; that it permit the railroads to make more money and pay liberal dividende and thus put themselves in position to furnish the facilities which the country is badly in need. Federal supervision of issues is deemed unwise because it would conflict with so many Nitre laws. liberal dividends and thus put themselves in position to furnish the facilities which the country is badly in need. Federal of the New Haven railroad by the Desupervision of issues is deemed unwise partment of Justice at Washington to because it would conflict with so many State Iswa.

State Iswa.

After Fresident Taft's message to Congress nobody certainly had serious England States.

PINANCE AND REALTY

tock market for the past week was d closed yesterday. Selling, for the mo part, was in fractional lots, with litt part, was in fractional lots, with little change in price is veis. There was sligh demand for bonds, two of Washington Railway and Electric selling for 8% and a Potomac Electric selling for 109. Smal lots of Capital Traction stock sold at 127 and ten shares of Gas hugged the pric of 87%, showing no tendency to resum its rise of last week. Mergenthaler con-tinued around 221%.

May Affect Gas Stock.

The election of Joseph Leiter as tem-

plan of B. V. Cummins to finance the George Washington Memorial Hall through a method of ground purchase, subdivision, and sale of lots, to embrace a profit of 12% per cent to the organiza-tion. The plan was broached at a meet-ing of the directors last week, and the

tion. The plan was broached at a meeting of the directors last week, and the Chamber was so favorably impressed with the idea that a special meeting of the board was called yesterday afternoon. Two hours were spent in consideration of the plan by eleven of the thirty members of the board. At the end, they raised the point of no quorum, and agreed to bring the matter to the attention of the whole Chamber at the meeting tonight. Mr. Cummins told the directors that a street railway company of Washington had asked that he present the plan to them for consideration, which he agreed to do by December 20.

Substantially, the plan revolves about the purchase of 100 acres of ground in the suburbs of Washington, under the direction of a committee appointed by the Chamber. The accommodation notes of members will be taken in exchange for the face value of stock in the holding company, and the ground subdivided and sold in building lots at a cost to carry the original purchase price, the subdivision and improvement cost, and 12½ per cent profit to the Chamber.

It is planned to sell the land to retired farmers living in the Middle West, who

cent profit to the Chamber.

It is planned to sell the land to retired farmers living in the Middle West, who are desirous of making Washington their home. In addition to a lucrative financial proposition, Mr. Cummins explains his idea as a populating system for Washington, by bringing to this city men with money to spend, and not those who will be dependent upon the resources of the city.

Occupy New Quarters.

The United States Trust Company oc-cupied its new offices in the banking room of the Southern Building yester-day. President Jordan was in his office day. President Jordan was in his office the greater part of the day, receiving friends who dropped in to look over the new offices. Everywhere were piled floral congratulations from friends of the institution. The new quarters of the United States Trust Company are among the handsomest banking offices in the city. Lewis Johnson Co., for more than fifty years bankers and brokers of Washington, yesterday moved to their new quarters in the Artington Building, 1966 Pennsylvania avenue, adjoining the Riggs National Bank.

Rumors were heard yesterday of the recently acquired control of the Shoreham Hotel by interests which also control the Willard and Raleigh hotels, and who will also exercise an option they are said to be possess, in purchasing the Shoreham property for \$1,00,000 before the expiration of the ten-year lease now held by J. Maury Dove.

Basis for these reports is given in the rapidly maturing plans for the New Arlington. Realising the need of a competitive housely in that section, the Pennsylvania avenue hotel people are said to be tentatively planning a new Shoreham similar in plan to the Raleigh. No verification of such rumors can be obtained. Rumors were heard yesterday of the

Park Boundary in Doubt.

A dispute which has arisen over the A dispute which has arisen over the boundary line of Montrose Park in Georgetown and Oak Hill Cametery, has resulted in the War Department refusing to accept jurisdiction over the land until the question of title is settled. Montrose Park was purchased by the District government at a cost of \$110,000, and the dispute has arisen over a strip of ground, eighteen feet wide, between the cemetery fence and the boundary of the park as determined by District Surveyor Hazen.

The strip is occupied by graves, and that of \$100,000, the session of \$100.

Ratirond Sale Postponed. Ratirond Sale Postponed.

The sale of the East Washington Heights Traction Company set for yesterday at the District Building was again postponed. The sale was ordered because of the failure of the company to pay a bill of \$3,586.49, the railway company's share of the annual expense of maintenance and repair of the Pennsylvania avenue bridge. There were no bidders present at the purposed sale.

til the question of title is settled. Montrose rose away was continued up to the close, final profess being trosse Park was purchased by the District government at a cost of \$116,000, and the dispute has arisen over a strip of ground, eighteen feet wide, between the cemetery fence and the boundary of the park as determined by District Surveyor Hazen. The strip is occupied by graves, and should the District acquire control, the bodies buried there would necessarily require disinterment. District Surveyor Hazen does not believe the District has any claim to the ground, which is disputed by Capt. Mark Brooke, Assistant Engineer Commissioner of the District, The matter has been sent to Corporation Counsel E. H. Thomas for a ruling.

Directors Declare Dividend.

At a meeting of the board of directors held December 5, the United States Savings Bank declared the eighth semi-annual didlyend of 3 per cent, payable January 1, 1912.

Railroad Sale Postponed.
